COLD-PRESSED LINSEED OIL

APPLICATION

To be used for promoting healthy skin and coat, sustaining long-lasting and balanced energy, and beneficial for the gastrointestinal system.

- Enhances coat shine
- Beneficial for the digestive system
- The breath is not adversely affected

Eclipse Biofarmab Linseed Oil, made in Sweden and 100% cold-pressed, offers an excellent and gentle method to augment the energy content in the feed without increasing the amount of carbohydrates.

This product features Swedish cold-pressed linseed oil, rich in sustained energy and a balanced ratio of Omega 3 and 6. Linseed oil can positively impact joints, cardiovascular health, skin condition, and offers valuable dietary benefits.

Cold-pressed linseed oil boasts an impressive 53% content of essential Omega 3 fatty acids, a significant contrast to soybean oil and corn oil, which contain only 7% Omega 3 fatty acids.

Our high-quality linseed oil is cold-pressed in Sweden from locally sourced infeeds.

With linseed oil, your dog will not suffer from the less fresh breath that is so common when the fatty acids are taken from fish oil. The positive effects of linseed oil on the dog's and cat's well-being become evident almost immediately, in the form of increased shine and improved fur and skin quality.

Energy content: 27 MJ/litre

FEEDING DIRECTIONS

>10 kg: 5 ml/day
10-30 kg: 10 ml/day
<30 kg: 15 ml/day

Mix well in feed.

SIZES AVAILABLE
