Rosehip powder
for horses

100% ROSEHIP POWDER

APPLICATION

To be used to maintain the horse's mobility and overall well-being.

- Contains 100% pure rosehip powder
- Can support joint and cartilage health
- Abundant in Vitamin C, galactolipids, and antioxidants

Eclipse Biofarmab Bio Rosa CL consists entirely of dried and ground rosehip skins, cultivated in the Chilean mountains.

Rosehips are a rich source of natural Vitamin C, antioxidants, amino acids, minerals, trace elements, and organic acids, with the skin of these pigmented fruits boasting the highest concentrations. Rosehips (*Rosa Canina*) are notably abundant in galactolipids, recognised for their beneficial properties. Among their various functions, galactolipids aid in the synthesis of collagen and cartilage, essential for joint protection. Research indicates that the galactolipids present in rosehips have a protective effect on cartilage cells.

Each component possesses distinct beneficial properties, working together to contribute to an overall improved health status.

Rosehip powder is widely utilised in human health, and its efficacy is well-documented across numerous scientific publications. Studies have been conducted on both animals and humans.

Eclipse Biofarmab exclusively sources its raw materials from the mountainous regions of Chile, where they are cultivated entirely without the use of fertilisers, additives, or pesticides. Following harvest, the shells undergo a heat-drying process, mechanically executed under stringent sanitary and temperature-controlled conditions, to ensure maximum retention of active ingredients.

Important: Bio Rosa's high concentration of the fatty acid galactolipid may cause the formation of soft lumps, which readily dissolve upon mixing the powder. As this product is composed of natural ingredients, variations in colour and appearance are normal.

FEEDING DIRECTIONS

Pony: 0.5 scoop

Horse: 1 scoop

Large-sized horse (over 600kg): 1,5 scoops

In case of intense exertion, the dosage may be increased to double the standard amount.

Mix directly into feed, preferably divided into two separate servings per day.

1 scoop = 25 g.

SIZES AVAILABLE

0887 650 g = 26 days supply at 25 g/day

0808 1,5 kg = 60 days supply at 25 g/day

COMPOSITION

Dried and powdered shell of rosehip from Chile.

ADDITIVES

The product contains no additives.

ANALYTICAL CONSTITUENTS

Crude Protein 5.3%, Crude Ash 5.5%, Crude Fat and Crude Oils 1.8%, Crude Fibre 16.7%, Sodium 0%.

SHELF LIFE

24 months.
