GAMMA ORYZANOL

APPLICATION

To be used for horses requiring muscle development support. Suitable for strength training, high-performance horses and young horses.

- Gamma Oryzanol, lysine and Vitamin E
- For horses requiring muscle development
- Enriched with growth-promoting agents

Eclipse Biofarmab Master Muscle contains gamma oryzanol, Vitamin E, lysine, and inulin. It is specifically designed for horses needing assistance in muscle development, such as after an extended rest or between competition seasons. For optimal results, Master Muscle should be used in conjunction with a varied and appropriate training regimen.

Gamma oryzanol, identified in rice bran oil in 1954, was quickly recognised for its growth-promoting properties. It has long been utilised as a natural antioxidant in the food industry and as a dietary supplement in human health products.

Since the late 1980s, gamma oryzanol products have seen widespread success in major equestrian countries, not only for growth enhancement but also for their association with reduced lactic acid and lowered risk of exercise-induced muscle damage. To maximise the benefits of gamma oryzanol, we have enriched our formula with Vitamin E. Additionally, our product boasts a high concentration of the growth-promoting amino acid lysine, yielding significant synergistic effects.

IMPORTANT: Master Muscle is formulated with an optimal ratio of gamma oryzanol to Vitamin E. Therefore, it is advised not to use other feed supplements containing Vitamin E in conjunction with this product.

FEEDING DIRECTIONS

Normal dosage:

Pony: 0.5 scoop/day

Horse: 1 scoop/day

In case of special needs:

Pony: 0.5 scoop morning and evening

Horse: 1 scoop morning and evening

Mix well in feed. Administer for 30 days, followed by a 30-day break. Repeat as needed.

1 scoop = 20 g

SIZES AVAILABLE

1049 600 g = 30 days supply at 20 g/day

1206 1.2 kg = 60 days supply at 20 g/day

COMPOSITION

Inulin, Calcium Carbonate, Gamma Oryzanol.

ADDITIVES

	1000 g	13 g
Vitamins:		
3a700 Vitamin E	25 000 mg	500 mg
Amino Acids:		
3.2.3 Lysine (L-lysine Hydrochloride)	315 g	6,3 g

ANALYTICAL CONSTITUENTS

Crude protein 35,0%, crude ash 22,1%, crude fat and crude oils 6,6%, crude fiber 4,3%, water 1,8% calcium 9.8%, sodium 0%.

SHELF LIFE

24 months.
