

FIBERPLEX

FIBERPLEX

**DIGESTION &
GUT HEALTH**

Performance

General health

Promotes
a healthy stomach
and intestinal system

GASTRIC HEALTH SUPPORT

APPLICATION

To be used for promoting a healthy gastro-intestinal system and addressing chronic digestive disorders.

- Supports digestive health
- Mitigates digestive disorders
- Composed of fibres, inactive yeast, lecithin, methionine, and vitamins

Eclipse Biofarmab Fiberplex is a unique blend of digestive-friendly fibres, specifically cultivated fermented yeasts from the *Saccharomyces cerevisiae* culture, along with lecithin, methionine, and B vitamins. It is considered a broad-spectrum solution, designed to have a beneficial impact on various aspects of the digestive system.

Fiberplex contains the following:

Lecithin: Offers protection to mucuous membranes from stomach acid. **Fibre concentrate PV70:** Enhances enzyme activity, primarily in the pancreas and small intestine. **Fermented yeast culture:** Nourishes microorganisms in the cecum and large intestine. **Inulin:** Collaborates with the yeast culture to promote the growth of beneficial microorganisms and balance pH levels in the stomach and intestines. **B vitamins and the amino acid methionine:** Regulate insulin and glucose levels in the blood, contributing to a calmer and more contented disposition in horses.

Fiberplex is particularly beneficial for horses dealing with chronic digestive disorders. Its impressive water-retaining capacity is especially crucial in cases of diarrhoea. Diarrhoea typically arises from an imbalance in the intestinal flora, which can promote the proliferation of harmful bacteria, disrupting the gut's natural balance. This imbalance adversely impacts the breakdown of feed, subsequently affecting nutrient absorption and, consequently, compromising the immune system's defense mechanisms.

Fiberplex is also offered as Fiberplex Sensitive, specially designed for horses that may have sensitivities to yeast.

FEEDING DIRECTIONS

Pony <400 kg: 1 dl of powder mixed well with 2.5 dl of water. Administer twice daily for 1–6 months.

Horse <500 kg: 1.5 of powder mixed well with 3.5 dl of water. Administer twice daily for 1–6 months.

Horse >500 kg: 2 dl of powder mixed well with 4.5 dl of water. Administer twice daily for 1–6 months. Mix well in feed immediately before feeding. If your horse has prolonged diarrhoea or shows general signs of distress, consult a veterinarian.

1 scoop = 1 dl = 30 g

SIZES AVAILABLE

1192 900 g = 12 days supply at 75 g/day

1125 2.7 kg = 36 days supply at 75 g/day

SHELF LIFE

24 months.

COMPOSITION

Fibres from Potato Cell Walls, Fermented Yeast, Lecithin, Inulin/Oligofructose.

ADDITIVES

		1000 g	30 g
Vitamins:	B1	1200 mg	36 mg
	B6	400 mg	12 mg
	Folic Acid	100 mg	3 mg
	B12	34 mg	1 mg
Amino acids:	Methionine	12.4	372 mg

ANALYTICAL CONSTITUENTS

Crude Protein 10%, Crude Fat and Crude Oils 5.2%, Crude Ash 4.6%, Crude Fibre 13%, Moisture 8.1%.
