Vitamin B1
supplement for horses

VITAMIN B1

APPLICATION

To be used when the nutritional content of the feed fails to meet the horse's requirements. Plays a crucial role in the body's metabolic processes.

Eclipse Biofarmab Thiamin contains 90% pure thiamin (Vitamin B1) with 10% added inulin* (prebiotics) for high bioavailability.

Thiamine, also known as Vitamin B1, is a coenzyme that acts as an activator in the metabolism of carbohydrates, among other nutrients. It plays a pivotal role in specific muscle and nerve functions, and is crucial for the body's energy production. Additionally, thiamine is vital for the body's effective management of stress. Thiamine is often administered to horses experiencing patellar locking (locking of the hind knees).

Supplementing Vitamin B1 is often necessary for high-performance horses or those undergoing a change in their diet. Due to its water-soluble nature, the risk of overdosing on Vitamin B1 is minimal. The body efficiently excretes any excess through the urine.

Eclipse Biofarmab Thiamin contains 90% Vitamin B1. Other options are available on the market, but when considering alternatives it is crucial to examine the percentage of Vitamin B1 present, as this is the active ingredient that determines the product's efficacy.

This product is completely sugar-free.

*The included inulin is an organic dietary fibre derived from the chicory flower. It promotes a healthy intestinal flora, creating favorable conditions for optimal nutrient absorption in the intestine.

FEEDING DIRECTIONS

Pony: 0.5 scoop/day

Horse: 1 scoop/day

Large-sized horse (over 600kg): 1.5 scoops/day

Mix well in feed.

1 scoop = 4.5 g

SIZES AVAILABLE

604603 350 g = 77 days supply at 4.5 g/day

1167 1 kg = 222 days supply at 4.5 g/day

COMPOSITION

Inulin.

ADDITIVES	1000 g	4.5 g
Vitamins:		
3a821 Vitamin B1	900 g	4.05 g
(Thiamin Mononitrate)		

ANALYTICAL CONSTITUENTS

Crude Protein 0%, Crude Oils and Fats 0.1%, Crude Fibre 0.5%, Crude Ash 0.1%, Sodium 0%.

SHELF LIFE

24 months.
