HIGHLY CONCENTRATED GLUCOSAMINE

APPLICATION

To be used for the support and care of tendons, joints, and cartilage. Ideally administered to maintain mobility.

Eclipse Biofarmab BioGlucomin contains a high concentration of glucosamine with exceptional absorption capacity. It also includes inulin and L-methionine, making it ideal for high-performance and older horses.

Eclipse Biofarmab BioGlucomin was among the pioneering glucosamine supplements for horses in the market, and its quality remains as outstanding today as it was nearly 30 years ago.

Glucosamine is a vital natural compound that plays a crucial role in the development of tendons, joints, and cartilage. As age advances or during intense exertion, the body's inherent capacity to produce sufficient amounts of glucosamine diminishes.

Incorporating manganese enhances the process of cartilage regeneration. Furthermore, we have included methionine, a readily absorbable sulfur source essential for cartilage formation. Additionally, the inclusion of inulin, a metabolic dietary fibre (prebiotic) promotes the cultivation of a healthy intestinal flora, optimising conditions for effective absorption in the intestines.

The glucosamine utilised in Eclipse Biofarmab's products is in the form of Glucosamine Hydrochloride (HCl).

- Glucosamine Hydrochloride (HCl)
- L-methionine, Vitamin C, manganese
- Crucial for tendon, joint, and cartilage formation

FEEDING DIRECTIONS

Pony: 1 scoop

Horse: 2 scoops

Large-sized horse (over 600 kg): 3 scoops

Mix in feed immediately before feeding, divided into two servings per day. To ensure compliance with maximum additive levels, do not exceed twice the recommended amount of BioGlucomin.

1 scoop = 7.5 g

SIZES AVAILABLE

1183	450 g	= 30 days supply at 15 g/day
1193	2 kg	= 133 days supply at 15 g/day
1054	6 kg	= 399 days supply at 15 g/day

COMPOSITION

Glucosamine HCl 47%, Inulin, L-methionine.

ADDITIVES

	1000 g	15 g
Vitamins:		
E302 Vitamin C	16.5 g	248 mg
Amino acids:		
3.1.1 Methionine	67 g	1000 mg
Trace elements:		
E5 Manganese (Manganous Sulfate)	2.5 g	37.5 mg

ANALYTICAL CONSTITUENTS

Crude Protein 21.4%, Crude Ash 1.5%, Crude Fats and Crude Oils 0.3%, Crude Fibre <0.5%, Sodium 0%.

SHELF LIFE

24 months.
