SAFETY DATA SHEET

Devil's Claw Gel

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name

Devil's Claw Gel

1.2. Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses of the substance or mixture

For horses

Uses advised against

None known.

1.3. Details of the supplier of the safety data sheet

Company details

Willab AB
Hålarpsvägen 15
26962 Båstad
Sweden

Revision

2023-06-12

SDS Version

2.0

1.4. Emergency telephone number

Emergency: Call 112 and ask for poison information. Open 24 hours a day.
Less urgent: Call 010-456 6700. Open 24 hours a day.
See Section 4 for first-aid measures.

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Not classified according to Regulation (EC) No 1272/2008 (CLP).

2.2. Label elements

Hazard pictogram

Not applicable.

Signal word

Not applicable.

Hazard statements

Not applicable.

Precautionary statements

General

-

Prevention

-

Response

-

Storage

-

Disposal

-

Contains

None known.

Other labelling

EUH210, Safety data sheet available on request.

2.3. Other hazards

Other

This mixture/product contains no substances considered to meet the criteria for classification as PBT and/or vPvB substances.
The product contains no substances assessed as endocrine disruptors according to the criteria in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

SECTION 3: Composition/information on ingredients

3.1. Substances

Not applicable. This product is a mixture.

3.2. Mixtures

Product/Substance	Identifiers	% w/w	Classification	Notes
Isopropyl alcohol	CAS No.: 67-63-0 EC No.: 200-661-7 REACH: 01-2119457558-25-xxxx Index No.:	5-10%	Flam. Liq. 2, H225 Eye Irrit. 2, H319 STOT SE 3, H336	
Cyclohexane	CAS No.: 110-82-7 EC No.: 203-806-2 REACH: 01-2119463273-41-XXXX Index No.: 601-017-00-1	<0.0015%	Flam. Liq. 2, H225 Asp. Tox. 1, H304 Skin Irrit. 2, H315 STOT SE 3, H336 Aquatic Acute 1, H400 (M=1) Aquatic Chronic 1, H410 (M=1)	[1], [3]

The full wording of the H-statements is given in Section 16. Occupational exposure limit values are given in Section 8, where available.

Other information

[1] European occupational exposure limit value.
[3] According to REACH Annex XVII, the substance is subject to restrictions.

SECTION 4: First aid measures

4.1. Description of first aid measures

General

In case of accident: Contact a doctor or emergency department - bring the label or this safety data sheet.
If symptoms persist or if there is any doubt about the affected person's condition, seek medical attention. Never give an unconscious person water or similar.

Inhalation

In case of breathing difficulties or respiratory irritation: Move the affected person immediately to fresh air and keep under observation.

Skin contact

In case of irritation: Wash off the product. If irritation persists: Contact a doctor.

Eye contact

In case of eye irritation: Remove any contact lenses. Rinse the eyes immediately with plenty of water (20-30 °C) until the irritation ceases.

Ingestion

If the person is conscious, rinse the mouth with water and stay with the person. Never give the person anything to drink. In case of nausea: Contact a doctor immediately and bring this safety data sheet or the product label. Do not induce vomiting unless recommended by a doctor. Lower the head so that any vomit does not flow back into the mouth and throat.

Burns
Not applicable.

4.2. Most important symptoms and effects, both acute and delayed
None known.

4.3. Indication of any immediate medical attention and special treatment needed
None known.

Information to physician
Bring this safety data sheet or the product label.

SECTION 5: Firefighting measures

5.1. Extinguishing media
Suitable extinguishing media: alcohol-resistant foam, carbon dioxide, powder, water mist.
Unsuitable extinguishing media: Water jet should not be used as it may spread the fire.

5.2. Special hazards arising from the substance or mixture
Dense smoke is produced in a fire. Exposure to decomposition products may constitute a health hazard. Closed containers exposed to fire should be cooled with water. Do not allow fire-fighting water to enter drains or waterways.
If the product is exposed to high temperatures, e.g. in the event of fire, hazardous decomposition products may form. These are:
Nitrogen oxides (NOx)
Carbon oxides (CO / CO2)

5.3. Advice for firefighters
Firefighters should use appropriate protective equipment.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures
No special requirements.

6.2. Environmental precautions
Avoid release into lakes, streams, sewers, etc.

6.3. Methods and material for containment and cleaning up
Spillage should be contained and collected with non-combustible absorbent material, e.g. sand, earth, vermiculite or diatomaceous earth, placed in containers and disposed of in accordance with applicable regulations.
Cleaning should be carried out as far as possible with cleaning agents. Solvents should be avoided.

6.4. Reference to other sections
See Section 13 "Disposal considerations".
See Section 8 "Exposure controls/personal protection" regarding personal protection.

SECTION 7: Handling and storage

7.1. Precautions for safe handling
Smoking, eating and drinking are not permitted in work areas.
See Section 8 regarding personal protection.

7.2. Conditions for safe storage, including any incompatibilities
Store in tightly closed containers and protect from moisture and sunlight. Containers must be dated when opened and tested regularly for the presence of peroxides. Do not exceed storage time limits.

Compatible packaging
Always store in containers made of the same material as the original container.

Storage temperature
No special requirements.

Incompatible materials
Strong acids, strong bases, strong oxidising agents and strong reducing agents.

7.3. Specific end use(s)
This product should only be used for the uses described in Section 1.2.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Isopropyl alcohol

Short-term exposure limit (15 minutes) (ppm): 250
Short-term exposure limit (15 minutes) (mg/m³): 600
8-hour limit value (ppm): 150
8-hour limit value (mg/m³): 350
Notes:
V = Indicative short-term exposure limit.

Triethanolamine

Short-term exposure limit (15 minutes) (ppm): 1.6
Short-term exposure limit (15 minutes) (mg/m³): 10
8-hour limit value (ppm): 0.8
8-hour limit value (mg/m³): 5
Notes:
H = The substance can readily be absorbed through the skin.
V = Indicative short-term exposure limit.
Swedish Work Environment Authority regulations and general advice on occupational exposure limits (AFS 2018:1) and later amendments AFS 2020:6 and AFS 2021:3.

DNEL

No data available.

PNEC

No data available.

8.2. Exposure controls

Compliance with occupational exposure limits should be checked regularly.

General

Smoking, eating and drinking are not permitted in work areas.

Exposure scenarios

No exposure scenarios have been implemented for this product.

Exposure limit

Professional users are subject to occupational health and safety legislation on maximum concentrations during exposure.
See the occupational exposure limits above.

Engineering controls

Vapour formation must be kept to a minimum and below current limit values (see above). Installation of local exhaust ventilation is recommended if normal airflow in the workroom is insufficient. Ensure that eyewash and emergency shower facilities are clearly marked.

Hygiene measures

Wash hands after use.

Environmental exposure controls

No special requirements.

Individual protection measures

General

Use only CE-marked protective equipment.

Respiratory protection

Respiratory protection is not required if ventilation is adequate.

Skin protection

No special requirements.

Hand protection

Glove material
Protective gloves
Glove thickness (mm)
-
Breakthrough time (min.)
-
Standards
EN374
Eye protection
Type
No special protection required during normal and intended use.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state
Gel
Colour
Light brown
Odour / odour threshold (ppm)
Characteristic
pH
Testing is not relevant or possible for this type of product.
Density (g/cm³)
Testing is not relevant or possible for this type of product.
Kinematic viscosity
Testing is not relevant or possible for this type of product.
Particle characteristics
Not applicable to liquids.
Phase changes
Melting point/freezing point (°C)
Testing is not relevant or possible for this type of product.
Softening point/range (waxes and pastes) (°C)
Not applicable to liquids.
Boiling point (°C)
Testing is not relevant or possible for this type of product.
Vapour pressure
Testing is not relevant or possible for this type of product.
Vapour density
Testing is not relevant or possible for this type of product.
Decomposition temperature (°C)
Testing is not relevant or possible for this type of product.
Fire and explosion hazard data
Flash point (°C)
Testing is not relevant or possible for this type of product.
Flammability (°C)
Testing is not relevant or possible for this type of product.
Auto-ignition temperature (°C)
Testing is not relevant or possible for this type of product.
Explosion limits (% v/v)
Testing is not relevant or possible for this type of product.
Solubility
Solubility in water
Testing is not relevant or possible for this type of product.
n-octanol/water coefficient
Testing is not relevant or possible for this type of product.

Solubility in fat (g/L)
Testing is not relevant or possible for this type of product.

9.2. Other information

Other physical and chemical parameters
No data available.
Oxidising properties
Testing is not relevant or possible for this type of product.

SECTION 10: Stability and reactivity

10.1. Reactivity

No data available.

10.2. Chemical stability

The product is stable under the conditions specified in Section 7 (Handling and storage).

10.3. Possibility of hazardous reactions

None known.

10.4. Conditions to avoid

None known.

10.5. Incompatible materials

Strong acids, strong bases, strong oxidising agents and strong reducing agents.

10.6. Hazardous decomposition products

The product does not decompose when used in accordance with Section 1.

SECTION 11: Toxicological information

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity
Product/Substance: Triethanolamine
Species: Rat
Route of exposure: Oral
Test: LD50
Result: 6400 mg/kg bw
Skin corrosion/irritation
Based on available data, the classification criteria are not considered to be met.
Serious eye damage/eye irritation
Based on available data, the classification criteria are not considered to be met.
Respiratory sensitisation
Based on available data, the classification criteria are not considered to be met.
Skin sensitisation
Based on available data, the classification criteria are not considered to be met.
Germ cell mutagenicity
Based on available data, the classification criteria are not considered to be met.
Carcinogenicity
Based on available data, the classification criteria are not considered to be met.
Reproductive toxicity
Based on available data, the classification criteria are not considered to be met.
Specific target organ toxicity - single exposure
Based on available data, the classification criteria are not considered to be met.
Specific target organ toxicity - repeated exposure
Based on available data, the classification criteria are not considered to be met.
Aspiration hazard
Based on available data, the classification criteria are not considered to be met.

11.2. Information on other hazards

Long-term effects

None known.

Endocrine disrupting properties

Not applicable.

Other information

Isopropyl alcohol: The substance has been classified in IARC Group 3.
Triethanolamine: The substance has been classified in IARC Group 3.

SECTION 12: Ecological information

12.1. Toxicity

No data available.

12.2. Persistence and degradability

No data available.

12.3. Bioaccumulative potential

No data available.

12.4. Mobility in soil

No data available.

12.5. Results of PBT and vPvB assessment

This mixture/product contains no substances considered to meet the criteria for classification as PBT and/or vPvB substances.

12.6. Endocrine disrupting properties

Not applicable.

12.7. Other adverse effects

None known.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

The product is not covered by the rules on hazardous waste.
Swedish Waste Ordinance (2020:614).

EWC code

Not applicable.

Contaminated packaging

The waste category is indicative and depends on how the waste was generated. Packaging containing product residues must be disposed of in the same way as the product.

SECTION 14: Transport information

	14.1 UN	14.2 Proper shipping name	14.3 Class	14.4 PG*	14.5 Env**	Other
ADR	-	-	-	-	-	-
IMDG	-	-	-	-	-	-
IATA	-	-	-	-	-	-

* Packing group
** Environmental hazards

Other

Not dangerous goods according to ADR, IATA and IMDG.

14.6. Special precautions for user

Not applicable.

14.7. Maritime transport in bulk according to IMO instruments

No data available.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Restrictions on use

None specific.

Special training requirements

No special requirements.

SEVESO - Hazard categories / Dangerous substances

Not applicable.

REACH, Annex XVII

Cyclohexane is subject to the restrictions of the REACH Regulation, REACH Annex XVII (Entry No. 57).

Other

Not applicable.

Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

15.2. Chemical safety assessment

No

SECTION 16: Other information

Wording of H-statements referred to in Section 3

H225, Highly flammable liquid and vapour.
H304, May be fatal if swallowed and enters airways.
H315, Causes skin irritation.
H319, Causes serious eye irritation.
H336, May cause drowsiness or dizziness.
H400, Very toxic to aquatic life.
H410, Very toxic to aquatic life with long lasting effects.

Abbreviations and acronyms

ADR = European Agreement concerning the International Carriage of Dangerous Goods by Road
ATE = Acute Toxicity Estimate
BCF = Bioconcentration Factor
CAS = Registration number assigned by Chemical Abstract Services
CE = Conformité Européenne (Conformity with EU directives)
CLP = Regulation (EC) No 1272/2008 on classification, labelling and packaging of substances and mixtures
CSA = Chemical Safety Assessment
CSR = Chemical Safety Report
DNEL = Derived No Effect Level
EINECS = European Inventory of Existing Commercial Chemical Substances
ES = Exposure Scenario
EUH hazard statements = Supplemental hazard statements under CLP
EWC = European Waste Catalogue
GHS = Globally Harmonized System of Classification and Labelling of Chemicals
IATA = International Air Transport Association
IMDG = International Maritime Dangerous Goods
LogPow = logarithm of the octanol/water partition coefficient
MARPOL = International Convention for the Prevention of Pollution from Ships, 1973 as modified by the Protocol of 1978
OEL = Occupational exposure limit / time-weighted average
OECD = Organisation for Economic Co-operation and Development
PBT = Persistent, Bioaccumulative and Toxic
PNEC = Predicted No Effect Concentration

www.almego.com
REACH = Registration, Evaluation, Authorisation and Restriction of Chemicals (Regulation (EC) No 1907/2006)
RRN = REACH Registration Number
SCL = Specific Concentration Limit
STOT-RE = Specific Target Organ Toxicity - Repeated Exposure
STOT-SE = Specific Target Organ Toxicity - Single Exposure
SVHC = Substance of Very High Concern
UVCB = Substances of Unknown or Variable composition, Complex reaction products or Biological materials
UN = United Nations
VOC = Volatile Organic Compounds
vPvB = Very Persistent and Very Bioaccumulative

Not applicable.

Safety data sheet validated by

Eclipse Biofarmab

Other

Modified data compared with the previous issue are marked with a blue triangle (first digit in the SDS version).
The information in this safety data sheet is based on our current knowledge. The information in the safety data sheet is based on the best available data and applies to the intended handling of the product. This safety data sheet relates only to this product and may not be applicable if the product is used as an ingredient in another product. If the product is used in a manner or application other than that for which it was originally developed or recommended, this is entirely at the user's own responsibility. The purpose of this safety data sheet is to describe the safety requirements for the product. It must not be understood as a guarantee of the product's properties, and the information cannot replace a product data sheet.

It is recommended that this safety data sheet be provided to the actual user of the product.
