

CLEAR AIRWAYS

CLEAR AIRWAYS

PERFORMANCE

General health

Performance

To support the horse's
respiratory system

FREE BREATHING

APPLICATION

To be used in supporting the respiratory tract, for example, when exposed to high levels of pollen and dusty environments.

Eclipse Biofarmab Clear Airways contains essential oils, herbs, honey, and Vitamin C to naturally support healthy airways. This blend is designed to bolster the immune system and sustain respiratory health.

Vitamin C is a potent antioxidant that supports the function of the immune system, particularly during infections or after physical exertion.

Honey, with its natural soothing properties and antibacterial qualities, supports immune health without significantly raising blood sugar levels, making it a beneficial ingredient for horses. Only Swedish honey is used in the product.

Essential oils like thyme stimulate the immune system and possess antibacterial, antiviral, and antiseptic properties. Peppermint, eucalyptus oil, and aniseed contribute to maintaining the normal function of the respiratory organs and promoting clear airways.

Clear Airways is suitable for use in high pollen counts, dusty conditions, or whenever the horse experiences irritated airways.

- Soothes irritated airways
- Promotes a strong immune system
- Essential oils, herbs, honey, and Vitamin C

FEEDING DIRECTIONS

Pony: 25 ml/day

Horse: 50 ml/day

Large-sized horse (over 600 kg): 75 ml/day

Shake well before use.

1 tablespoon = 15 ml

SIZES AVAILABLE

600983 1 l = 40 days supply at 25 ml/day

SHELF LIFE

24 months.

COMPOSITION

Water, Honey, Peppermint Oil, Eucalyptus Oil, Thyme Extract, Aniseed Oil.

ADDITIVES

	1,000 ml	25 ml
Vitamins:		
Vitamin C	17 g	3.5 g
