**CARE & GROOMING** | Skin & Coat | Pharmacy | Cleansing spray with chlorhexidine

## CHLORHEXIDINE SPRAY

**APPLICATION**
For thorough cleansing of skin areas that need extra care and attention.

- **Chlorhexidine 4%**
- **Gentle and conditioning**
- **Deep-cleanses soiled skin**

Eclipse Biofarmab BioChlorHex Spray 4% is a cleansing spray containing chlorhexidine for horses, dogs and cats. Formulated for thorough cleansing of the skin in areas that need extra care and attention.

The spray is suitable for soiled or exposed skin, as well as smaller areas of skin and paws that require extra care. The practical spray makes application directly to the area concerned quick and easy.

Glycerol helps condition the skin while the product provides thorough cleansing.

No rinsing is required. Allow the product to dry after application.

**INSTRUCTIONS FOR USE**
Shake the bottle before use.
Clean the area, then spray until the skin is damp.
Do not rinse or wipe off. Repeat 1–2 times daily, or as required.

For external use only.

Always consult a veterinarian if you are unsure about the condition of the skin.

**COMPOSITION**
Chlorhexidine 4%, Glycerol.

**SHELF LIFE**
36 months.
