

ALOE VERA GEL

ALOE VERA GEL

CARE & GROOMING

Skin & Coat

Pharmacy

Effective for
wound care, swelling,
and skin irritations

MOISTURIZING GEL

APPLICATION

To be used as a softening and soothing gel for wound care, reducing swelling, and alleviating skin irritations. The gel is also suitable for massage.

- Contains **ACTIValoe®**
- Well suited for **massage**
- **Relieves insect bites, swelling, and minor wounds**

Eclipse Biofarmab Aloe Vera Gel is designed to enhance skin softness and suppleness, thanks to its moisturising glycerol content, making it an excellent choice for massages or bandaging.

It is equally effective in relieving insect bites, reducing swelling, and treating minor wounds.

We exclusively use ACTIValoe, the world's most rigorously tested Aloe Vera product, guaranteeing a minimum of 10% polysaccharides.

Aloe Vera Gel provides optimal conditions for wound healing, boasting elevated lignin levels that effectively penetrate the skin, a crucial element in the healing process.

INSTRUCTIONS FOR USE

Wash the affected area and apply a thin layer of the gel.

For larger wounds, wash with Eclipse Biofarmab Aloe Vera spray, then apply the gel. Can be repeated several times a day until the wound is healed.

For external use only.

If you have any doubts about wound treatment, consult a veterinarian.

COMPOSITION

Aloe Vera (ACTIValoe® is a licensed trademark owned by Aloecorp Inc.), Glycerol.

SHELF LIFE

36 months.
