APPLE MOUTH BUTTER

CARE & GROOMING

Skin & Coat

Pharmacy

For care of the corners
of the mouth
– apple flavoured

SOFTENS & PROTECTS

APPLICATION

For daily care of the corners of the horse's mouth when using a bit.

- For care of the corners of the horse's mouth
- Delicious apple flavour
- May help reduce friction from the bit

Eclipse Biofarmab Mouth Butter is a softening balm for the corners of the horse's mouth. The petroleum jelly-based formula helps keep the skin soft and supple when using a bit.

Its smooth consistency makes the balm easy to apply and helps create a smooth contact surface between the skin and the bit. This may help reduce friction, particularly with regular bit use or when the corners of the mouth need extra care.

Mouth Butter can be used both before and after using a bit.

Contains apple extract for a pleasant taste.

INSTRUCTIONS FOR USE

Apply the balm to the corners of the horse's mouth before and after using a bit. Reapply as required to help keep the skin soft and supple.

For external use only.

COMPOSITION

Petrolatum, apple extract.

SHELF LIFE

24 months.
