## VASELINE

CARE & GROOMING

Skin & Coat

Pharmacy

Protects and softens  
the skin

## SOFTENS & PROTECTS

### APPLICATION

For the care of dry skin and areas prone to rubbing and chafing.

- Softening and conditioning
- May help reduce rubbing and chafing
- Water-resistant and odourless

Eclipse Biofarmab Vaseline is a softening balm for the horse's skin. Its water-resistant properties help maintain the skin's natural moisture balance and provide a protective layer on exposed areas.

Vaseline helps keep the skin soft and supple. It is suitable for dry skin, the corners of the mouth when using a bit, and areas exposed to friction from tack or other equipment, helping to reduce rubbing and chafing.

The smooth consistency makes the balm easy to apply. It can be used as required or as part of the horse's regular grooming routine.

The product is odourless and tasteless.

### INSTRUCTIONS FOR USE

Apply the balm to the desired or exposed area of skin. Use as required to help keep the skin soft and supple.

For external use only.

### COMPOSITION

Vaseline.

### SHELF LIFE

24 months.
