

KLORHEXIDINSCHAMPO

CHLORHEXIDINE SHAMPOO

CARE & GROOMING

Skin & Coat

Pharmacy

For thorough
cleansing of
skin and coat

CHLORHEXIDINE 4%

APPLICATION

For thorough cleansing of the skin and coat in areas that require extra care.

- Deep-cleansing formula
- Skin-friendly formula with a balanced pH
- Gentle with moisturising properties

Eclipse Biofarmab Chlorhexidine Shampoo is an effective, deep-cleansing and fragrance-free shampoo, specially developed for animals with sensitive skin or those in need of extra care.

The formula contains 4% chlorhexidine and provides thorough cleansing of the skin and coat when extra hygiene is required.

The shampoo is suitable for soiled or exposed skin, as well as for areas of the skin and paws that need extra attention. Suitable for regular use and for occasions when a more thorough cleanse is required.

Glycerol helps condition the skin, while the skin-friendly formula with a balanced pH helps maintain the skin's natural balance. Leaves the coat clean, fresh and well conditioned.

INSTRUCTIONS FOR USE

Use lukewarm water to wet the animal's coat. Massage in shampoo and work up a rich lather throughout the coat. Leave the shampoo to work for 5-10 minutes. Rinse thoroughly and dry.

Always consult a veterinarian if you are unsure about the condition of the skin.

Avoid contact with eyes and ears.
For external use only.

COMPOSITION

Chlorhexidine digluconate 4%, Glycerol, Lumorol Verstatil, Oxetal, NaCl, water.

SHELF LIFE

36 months.
