TRUE PERFORMANCE IS FELT

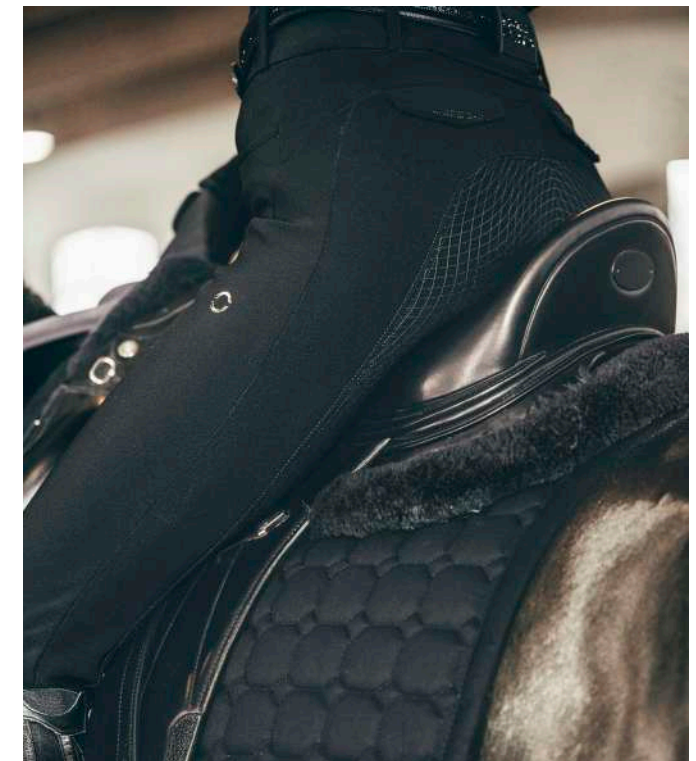

Equestrian sport has always been more than function. It is attitude, discipline, and aesthetics – shaped by tradition, driven by performance, and advanced through innovation. The PIKEUR Autumn | Winter 2026 collection emerges precisely from this interplay. With our heritage as the foundation, we create equestrian apparel that respects the past and shapes the future. Classic values and iconic codes of equestrian sport are not preserved to stand still – but to be reinterpreted in a contemporary way.

MATERIAL AS A STATEMENT

At PIKEUR, innovation grows out of heritage. Advanced textiles, precise constructions, and intelligent layering concepts are not ends in themselves – they are tools. Developed for athletes who must be able to rely on every detail. Our materials unite opposites:

- protection and lightness
- warmth and breathability
- stability and maximum freedom of movement

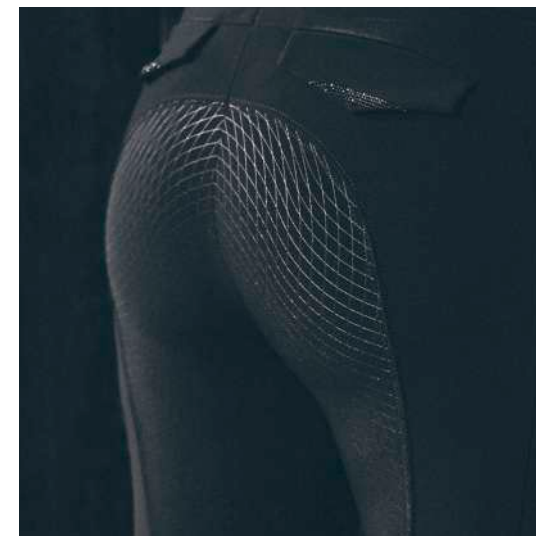

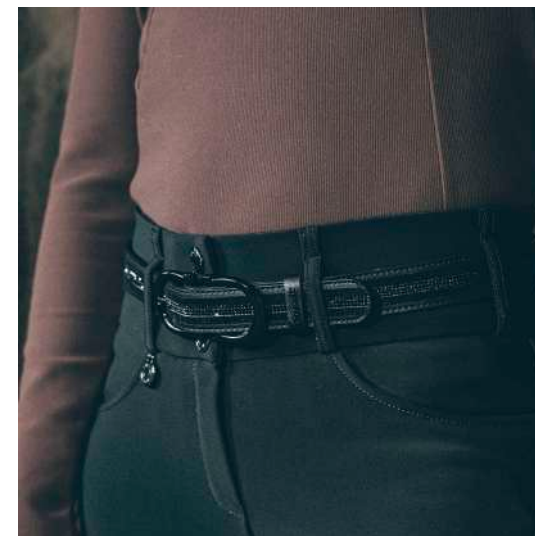

Modern performance wear meets the highest standards of material quality and craftsmanship – for precision, comfort, and well-being in the saddle. In this way, technical excellence becomes a carrier of identity and recognizability.

TRUE PERFORMANCE IS NOT ONLY MEASURABLE. IT IS FELT.
IN YOUR RIDE. IN YOUR STYLE. IN YOUR CONFIDENCE.

OUR PATCHES

GRIP TEC

Pikeur GripTec delivers dynamic hold with maximum flexibility through a strategically applied high-performance screen print, providing precision and power for the rider.

MATRIX GRIPTEC

Matrix GripTec delivers a full-surface, high performance grip applied across the entire seat, combining uniform hold with maximum flexibility for unmatched control and endurance.

FLEXTEC LEATHER

An elastic, full-surface high-performance TecLeather material that smoothly integrates rider and saddle, delivering effortless comfort and a supple, soft feel.

GRIDTEX LEATHER

A full-surface, elastic TecLeather with subtle grid-patterned grip overlay, combining the comfort and flexibility of full-surface leather with the controlled adhesion of high-performance grip – offering the benefits of both in one innovative material.

DURA GRIP

High-performance, full-surface grip designed for controlled hold and extended durability, combining elasticity, comfort, and professional-grade performance.
